Waste Generation in Germany

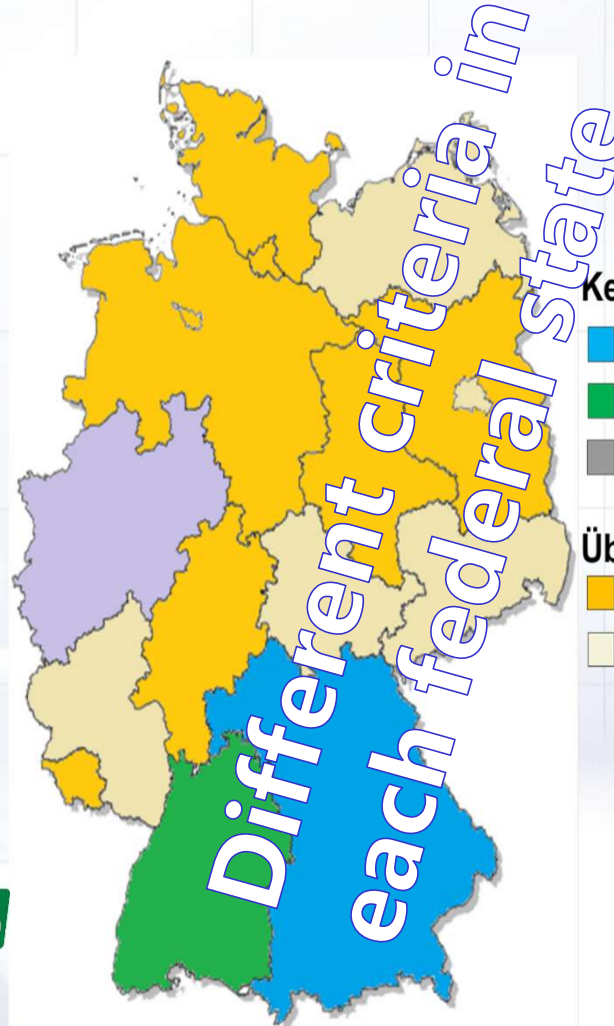

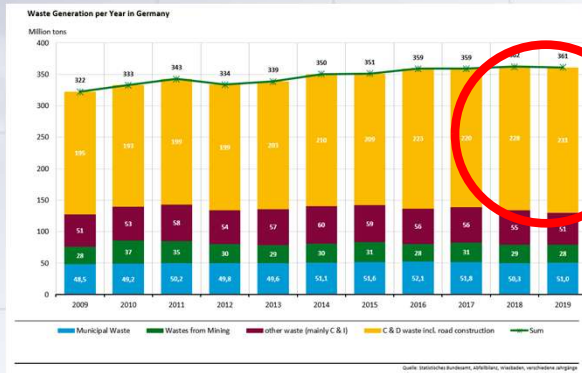

**Recycling must be extended,
but also the demand for recycling products in the market**

Waste Management and Recycling

Decreased demand for waste materials outside of the EU due to import ban from various countrys even for high quality secondary raw materials

→stronge urge to increase invest in local recycling facilities
e.g. plastics, textiles, minerals recycling

Innovation: Harmonised Criteria for C & D Waste

Keine Verwendung der LAGA M20

- Bayern: eigener Leitfaden
- BW: RC-Erlass und Hinweise
- NRW: sog. Verwertererlasse

Übergangslösung:

- Weiterverwendung der LAGA M20
- Weiterverwendung der LAGA M20 plus eigene zusätzliche Hinweise/Leitfäden/Erlasse

Geprüfte, güteüberwachte
und zertifizierte Sekundär-
baustoffe und -rohstoffe

kontrolle (WPK)
Hersteller

Bau- und Abbruchabfälle,
Bodenaushub

The QUBA GmbH and its aims

- Implementing one **quality criteria** in Germany
- Strengthening and promoting **selective deconstruction**
 - by separating waste already at the **construction site**
 - increasing the **demand** for separated construction waste
- Involving authorities and public procurement

Future Outlook: Demands

A need for a significant increase in the use of secondary raw materials as substitutes for primary raw materials (e.g. plastics, recycled construction material)

➔ Government as pioneer in the procurement of recycled products

Future Outlook: Circular Economy

A sustainable ecological circular economy requires cooperation of all actors involved, as well as further efforts by the governments and the EU!
