

Fulfilling the potential of a circular economy

Since 2010

What is the problem?

This is the average recycling container in Sweden:

Current Use

vs.

Actual Need

What is the solution?

Our sensor is
retrofitted into
any container

Connecting them to
our cloud-based
service

What is the solution?

AI makes precise
prognosis of
when to empty

Giving you control
over information
from any device

Don't empty by schedule
Empty by **Need**
