team neusta – your partner for highly customized (web)applications.

We are an owner-managed group of companies in the digital industry and offer you a broad spectrum of services. We help you realize your visions digitally and achieve your goals.

team neusta has more than 30 years of experience and offers you the interdisciplinary know-how of around 1,200 experts within the DACH region – both of which we would like to share with new partners in Sweden. Our partnership begins with understanding your goals. We listen carefully and provide strategic advice to design and develop highly customized solutions.

We are very passionate about digitalization projects, and we are goal-, customer-, and user-oriented: We ensure that the right, innovative technologies and platforms are successfully implemented across all industries for your project. Our strengths lie in interdisciplinary, well-coordinated teams and short ramp-up phases. Both enable us to work quickly, effectively, and successfully. Our quality standards are high. We always strive to provide our customers with the best solution for their challenge.

For us, successful collaboration is based on trust, reliability, and performance. We often think outside the box, across industries, and always in terms of solutions. We make decisions quickly and directly. Our trust-based approach aims to understand individual needs (yours and those of your users) and means working together to develop innovative and reliable web applications and software solutions.

Curiosity, learning, and development are fundamental to us. Securing the success of our customers' projects and developing convincing digital solutions is only possible because every team member is committed with expertise and passion. Our employees participate in an ongoing training program to ensure they are always up to date.

We have many years of project experience in sensitive sectors such as defense, eHealth, aviation, and finance. We rely on technologically advanced, secure, and reliable solutions that are precisely tailored to your needs.
